

Congratulations to Kim Woznack on Being Named a 2022 ACS Fellow

The 2022 ACS Fellows were announced in [C&EN](#) on August 4, 2022. “The purpose of the ACS Fellows Program is to recognize and honor members of the American Chemical Society for their outstanding achievements in and contributions to the science and the profession and for their equally exemplary service to the Society.” Dr. Kimberly Woznack, the current Chair of the Pittsburgh Section of the ACS, was named as a 2022 ACS Fellow.

Dr. Kimberly Woznack obtained her Ph.D. from the University of Wisconsin-Madison in 2002, studying the use of Synchrotron-based Photoelectron Spectroscopy to study metal to semiconductor contacts. She then completed her postdoctoral studies at the University of New Hampshire, implementing changes in the General Chemistry curriculum and performing educational research. In 2004, she joined the faculty at California University of Pennsylvania (now known as Pennsylvania Western University, California) in the Department of Chemistry and Physics. Dr. Woznack was promoted to Chair of the Department in 2011 and held the position for three years. She has been a full professor since 2016, teaching both General Chemistry and upper-level inorganic chemistry courses and supervising undergraduate research projects. At Pennsylvania Western University, California, Kim is an advisor of the Chemistry Club, which includes student affiliate members of the ACS and the SACP.

Kim has been involved in the American Chemical Society for over a decade. She was a member of the Women Chemists Committee (WCC) from 2011-2020 and served as Chair of the WCC for the last three years. She is currently a member of the Local Section Activities Committee, serving on the Grants and Awards Subcommittee. Kim has been serving as Chair of the Pittsburgh Section of the ACS for the past year.

Congratulations on this well deserved honor, Kim!
